1. The first part of the report is a summary of the project objectives and the scope of the study.

2. The second part of the report is a detailed description of the methodology used in the study.

3. The third part of the report is a discussion of the results of the study.

4. The fourth part of the report is a conclusion and a list of references.

Table 1: Summary of Project Objectives and Scope			
Objective	Scope	Methodology	Results
1. To determine the effect of the independent variable on the dependent variable.	1. The study was conducted in a laboratory setting.	1. The independent variable was manipulated at three levels.	1. The dependent variable was measured at three levels.
2. To determine the effect of the independent variable on the dependent variable.	2. The study was conducted in a laboratory setting.	2. The independent variable was manipulated at three levels.	2. The dependent variable was measured at three levels.
3. To determine the effect of the independent variable on the dependent variable.	3. The study was conducted in a laboratory setting.	3. The independent variable was manipulated at three levels.	3. The dependent variable was measured at three levels.

Question	Answer	Points
1. Which of the following is a function of the endoplasmic reticulum?	Protein synthesis	100%
2. Which of the following is a function of the Golgi apparatus?	Protein modification and transport	100%
3. Which of the following is a function of the lysosome?	Protein degradation	100%
4. Which of the following is a function of the mitochondrion?	ATP production	100%
5. Which of the following is a function of the nucleus?	Genetic material storage	100%
6. Which of the following is a function of the plasma membrane?	Cellular protection and transport	100%
7. Which of the following is a function of the cytoskeleton?	Cellular structure and movement	100%
8. Which of the following is a function of the cell wall?	Cellular protection and structure	100%
9. Which of the following is a function of the vacuole?	Storage and waste removal	100%
10. Which of the following is a function of the chloroplast?	Photosynthesis	100%
11. Which of the following is a function of the peroxisome?	Lipid metabolism and detoxification	100%
12. Which of the following is a function of the centriole?	Cell division	100%
13. Which of the following is a function of the flagellum?	Cellular movement	100%
14. Which of the following is a function of the cilia?	Cellular movement and signaling	100%
15. Which of the following is a function of the microvilli?	Cellular transport and signaling	100%
16. Which of the following is a function of the tight junctions?	Cellular adhesion and barrier function	100%
17. Which of the following is a function of the desmosomes?	Cellular adhesion and mechanical strength	100%
18. Which of the following is a function of the hemidesmosomes?	Cellular adhesion and mechanical strength	100%
19. Which of the following is a function of the gap junctions?	Cellular communication	100%
20. Which of the following is a function of the plasmogamy?	Cellular fusion and genetic exchange	100%
21. Which of the following is a function of the karyogamy?	Cellular fusion and genetic exchange	100%
22. Which of the following is a function of the meiosis?	Cellular division and genetic recombination	100%
23. Which of the following is a function of the mitosis?	Cellular division and growth	100%
24. Which of the following is a function of the cytokinesis?	Cellular division and growth	100%
25. Which of the following is a function of the cell cycle?	Cellular division and growth	100%
